

City of University Heights
Spring Leaf Vacuuming
April 1, 2019 (1 to 3 days)

Please have leaves raked to the edge of your property—not into the street or gutter—before 8am. Leaves only; no sticks or other yard waste.

Quality Care expects it will take 1 to 3 days to vacuum all of University Heights.

Street sweeping will take place after leaf vacuuming, likely in late April. LL Pelling (our service provider) will wait to schedule this until they are relatively sure there will be no last spring snow or ice storms.
