

## **City of University Heights Leaf Vacuuming 2018:**

Rake leaves to the edge of the curb/street, **not** into the street or gutter.  
Leaves only; no sticks or other yard waste.

November 7 (Wednesday)

November 19 (Monday)

December 5 (Wednesday)

Quality Care expects it could take three days to vacuum all of University Heights each time, so vacuuming in some areas may begin as many as two days later.

The December 5 date is subject to change based on the weather (if a big snow storm is predicted, the date may move up; if leaves are still on trees, the date may move back).
